UCPH's AI declaration

Declaration of using generative AI tools (for students)

☒ **I/we have used generative AI as an aid/tool** *(please tick)*

☐ **I/we have <u>NOT</u> used generative AI as an aid/tool** *(please tick)*

If generative AI is permitted in the exam, but you haven't used it in your exam paper, you just need to tick the box stating that you have not used GAI. You don't have to fill in the rest.

List which GAI tools you have used and include the link to the platform (if possible):

Claude (Anthropic), <u>https://claude.ai</u>
ChatGPT (OpenAI), <u>https://openai.com</u>

Describe how generative AI has been used in the exam paper:

1) *Purpose (what did you use the tool for?)*

   Idea generation and discussion of results, including sparring on unusual or unexpected findings. Proof reading and coding.

2) *Work phase (when in the process did you use GAI?)*

   Used continuously throughout the writing process as a consultant on ideas, argumentation, and technical issues (e.g., R coding).

3) *What did you do with the output? (including any editing of or continued work on the output)*

   All suggestions based on proof reading have been critically assessed and held up against the original text and have carefully been compared when using potential suggestions.

Please note: Content generated by GAI that is used as a source in the paper requires correct use of quotation marks and source referencing. Read the guidelines from Copenhagen University Library at KUnet.
